MUHAMMED THAHA

Full Stack Developer | MERN Stack | Node.js | React.js | Next.js | AWS | 3+ Years Experience

Kannur, Kerala, India | +91 9567238103 | thwahatkp@gmail.com | https://thwahakp.in

Professional Summary

Results-driven Full Stack Developer with 3+ years of experience building scalable, secure, and high-performance web applications for government and enterprise environments. Proven expertise in designing end-to-end MERN stack solutions, real-time data platforms, and payment-integrated systems deployed on cloud infrastructure.

Contributed to large-scale public sector platforms including **ASAP Kerala, Kerala Police, Vigilance Kerala, Suchitwa Mission, and Kannur International Airport**, supporting mission-critical applications serving thousands of users. Passionate about backend architecture, performance optimization, and scalable system design.

Core Technical Skills

Languages: JavaScript (ES6+), TypeScript, PHP

Frontend: React.js, Next.js, Redux, HTML5, CSS3

Backend: Node.js, Express.js

Databases: MongoDB, MySQL, SQL

Real-Time Systems: Socket.IO, Kafka, RabbitMQ

API & Architecture: REST APIs, Webhooks, Microservices Architecture

Cloud & DevOps: AWS, Docker, Nginx, Linux, CI/CD Pipelines

Tools: Git, GitHub, Postman, WordPress

Professional Experience

Full Stack Developer | SRV Infotech, Kannur | Dec 2022 – Present

Developed scalable full-stack enterprise applications using **MERN stack technologies**.

Built responsive and SEO-optimized interfaces using **React.js and Next.js**.

Designed and maintained secure **REST APIs** using Node.js and Express.js for government platforms.

Developed a **real-time social listening platform** aggregating social media interactions for centralized monitoring.

Integrated payment gateways including **Razorpay, Stripe, PhonePe, and MyFatoorah**.

Optimized backend services and database performance, improving response time by **up to 30%**.

Deployed and maintained applications on **AWS Linux environments** using Docker and Nginx.

Government & Enterprise Project Experience

Additional Skill Acquisition Programme (ASAP) Kerala – Development and maintenance of enterprise web systems.

Vigilance Kerala – Development and supported web and management applications

Kerala Police – Backend development and scalable service platform support.

Suchitwa Mission – Development of data-driven public service management platforms.

Kannur International Airport – Contribution to enterprise-level web application modules.

Technical Contribution

Express Error Catcher (NPM Package)

Developed and published *Express Error Catcher*, an NPM package providing centralized error-handling middleware for Express.js applications, achieving 50,000+ monthly downloads and improving API stability by simplifying error management across production

Education

Higher Secondary Education (Computer Application) Kerala State Board

Languages

Malayalam, English
